Summary

Results-driven Full Stack Web Application Developer with a creative and innovative approach. Well-versed in software engineering methodologies, tools, and strategies, holding a Higher National Diploma in Information Technology (HNDIT) with a strong GPA. I bring a unique blend of skills and experience gained through internships and as associate software engineer. My expertise lies in crafting robust solutions using Laravel, integrating REST APIs and make Laravel APIs. I have successfully delivered projects showcasing my proficiency in Laravel API development and Laravel+React.js projects, demonstrating my ability to design databases and create intuitive UI/UX. Passionate about staying updated on industry trends and committed to delivering high-quality solutions. Eager to contribute skills, enthusiasm, and commitment to your organization's success

Experience

Full Stack Associate Web Developer

Axcertro (PVT) Ltd,

Jan 2024 – PRESENT

Hambanthota, Sri Lanka,

- Successfully developed and implemented robust Laravel APIs, ensuring seamless communication between the server and various applications.
- Designed and created an intuitive Admin dashboard, providing a user-friendly interface for efficient management and control of backend processes.
- Executed the development of the public-facing website using React.js, combining creativity with functionality to deliver an engaging user experience.
- Integrated secure payment gateways, including DirectPay and OnePay, enhancing the e-commerce capabilities of the platform and ensuring smooth financial transactions.
- Implemented SMS gateway integration through Notify.lk, enabling effective communication with users through automated and timely messages.
- Collaborated closely with cross-functional teams, actively participating in project planning, code reviews, and troubleshooting sessions to ensure project goals were met effectively.
- Demonstrated adaptability and problem-solving skills in a dynamic work environment, contributing to the successful completion of projects within deadlines.
- Maintained a commitment to staying updated on industry trends and emerging technologies, actively incorporating best practices into development processes.
- Work with Repository architecture Method.

Full Stack Web Developer Intern

Axcertro (PVT) Ltd,
July 2022 – Jan 2023 (6 months)
Hambanthota, Sri Lanka,

During my dynamic 6-month internship at Axcertro, I played a pivotal role as a Full Stack Web Developer Intern, contributing significantly to the company's projects and gaining valuable experience in various aspects of web development.

Key Contributions and Responsibilities:

- Developed and maintained Laravel APIs, showcasing proficiency in crafting robust and scalable backend solutions to support the organization's digital initiatives.
- Leveraged Laravel Livewire framework to enhance the user interface and interactivity of web applications, ensuring a seamless and engaging user experience.
- Collaborated closely with a diverse and talented team, fostering a friendly and cooperative work environment. Actively participated in collaborative coding sessions, knowledge-sharing, and problem-solving discussions to contribute to the success of team projects.
- Contributed to the development of innovative features and functionalities, demonstrating adaptability and a keen interest in staying updated on the latest industry trends.
- Actively engaged in the full software development lifecycle, from conceptualization and design to implementation and testing, gaining hands-on experience in various aspects of the development process.
- Demonstrated strong communication skills by effectively conveying technical concepts to both technical and non-technical team members.
- Successfully completed projects within deadlines, showcasing a commitment to delivering high-quality work and contributing to the overall success of Axcertro's web development initiatives.

My internship at Axcertro has equipped me with practical skills, enhanced my collaborative capabilities, and deepened my understanding of Full Stack Web Development. I am eager to apply this experience and continue my journey as a skilled and adaptable developer.
